February 2009

Greetings,

Would You Like To Start Living Your Dreams Now? It is possible. By following a few simple principles you can move from simply dreaming to actually living your dreams. Imagine what that would feel like.

Discover these principles in *A Passion for the Edge: Living Your Dreams Now*. Find out how in the next section of this Newsletter.

Live your dreams,

Tim Tyler
President, Edenscape Publishing

About This Book

What Makes It Different?

Have you read how-to-succeed books and found they have not significantly changed your life? The reason they are ineffective is that each of us are unique. We have different dreams, we are at different stage of our lives, we have different skills, different backgrounds, different interests, different financial needs, different experiences. We are unique individuals.

Imagine walking into a mall to buy running shoes and seeing two shoe stores next to each other. One has a sign in the window that reads - One Size Fits All Running Shoes. The other store has a sign in the window that reads - Custom Fit Running Shoes. Where Would You Buy Your Running Shoes? Can a one-size-fits-all running shoe help you to run better?

Does it make any more sense to buy a one-size-fits-all how to succeed book then it does to buy running shoes at a one-size-fits-all shoe store? Can a 3, 5, 7, or 10 step one-size-fits-all formula for success transform your life?

A Passion for the Edge: Living Your Dreams Now explains why one-size-fits-all success books fail to significantly change you. It

Thank You for Buying *A Passion for the Edge: Living Your Dreams Now*. Nearly half of you that already bought this book purchased two or more copies. Some bought 5 to 10 books and gave copies to family and friends. And one person called and said she curled up in her favorite chair and read the entire book in one day! As a new author, it's exciting to see your response.

Thanks again.

Best wishes, Tim

Announcing
Another Book
Award

You already know from the December 2008 Newsletter that *A Passion for the Edge: Living Your Dreams Now* is a National Best Books Award-Winning Finalist in the category Business: Motivational.

then teaches the principles that will allow you to succeed, to radically change what you see as possible, and to step boldly into living your dreams now.

This book differs from other books on success in that it does not give you a list of things you need to do be successful - the one-size-fits-all approach. Instead the book is written in a way that will allow you to discover the principles of success and then translate them into actions that apply specifically, and uniquely, to you and your dreams - the custom fit shoe approach.

This is what Jim Barnes, Managing Editor & Awards Director of the Independent Publisher Online, wrote about *A Passion for the Edge: Living Your Dreams Now*.

"Here's a 'road trip' book about finding a pathway to your dreams, interwoven with author Tim Tyler's tales of motorcycle trekking around Alaska and the Northwest. I'm normally skeptical about combining memoir and self-help, but Tyler's passion is contagious, and his meticulous but enthusiastic approach to writing, biking and living brings it all together seamlessly. You may not expect to receive personal growth affirmations from a big, leather-clad guy on a motorcycle, but life's funny that way. This book will entertain, instruct and inspire you, in whatever proportions you care to take them in."

A Passion for the Edge: Living Your Dreams Now creates an opportunity for discovering and applying the principles that will allow you to succeed in living your dream. After reading it, you will have the tools to begin the journey. Then, all you'll need to do is take the step. Live your dream.

Why wait? What's stopping you?

Anchorage Sunset

Grasp The Moment!

The right time, the right place, and the right action.

This is an amazing photograph of a sunset I took the other day. Without a doubt one of the most spectacular sunsets I have ever seen. It was blindingly brilliant.

Recently, *A Passion for the Edge: Living Your Dreams Now* was also recognized as an Independent Publisher Highlighted title. Highlighted titles "recognize the best of the newly released, independently published titles ... honored ... for exhibiting superior levels of creativity, originality, and high standards of design and production quality." (Quote from Independent Publishers Online Magazine)

About The Author

Tim Tyler launched Minuteman missiles while in the U.S. Air Force, conducted research and development for Texaco, managed the development of some of the largest oil fields in North America for BP, headed a worldwide research and technical service organization in England, started two businesses, and traveled around the world. A five time patent holder, Tyler set the ambitious goal of retiring at age 55. Instead, he retired at age 50 - determined to

It looked like the horizon was on fire,

We've lived in Anchorage, Alaska for nearly 25 years and never seen anything like this before. I just happen to look out my office window and there it was. So I stopped what I was doing and started taking pictures. Within a few minutes the incredible sight was gone. The brilliance lost.

I happened to see this sunset because I glanced out the window. But if I had waited just a few minutes to finish what I was doing before grabbing the camera, it would have been too late. The moment would have past. The opportunity lost.

The right time, the right place, and the right action. Don't let opportunities pass you by. Take Action!

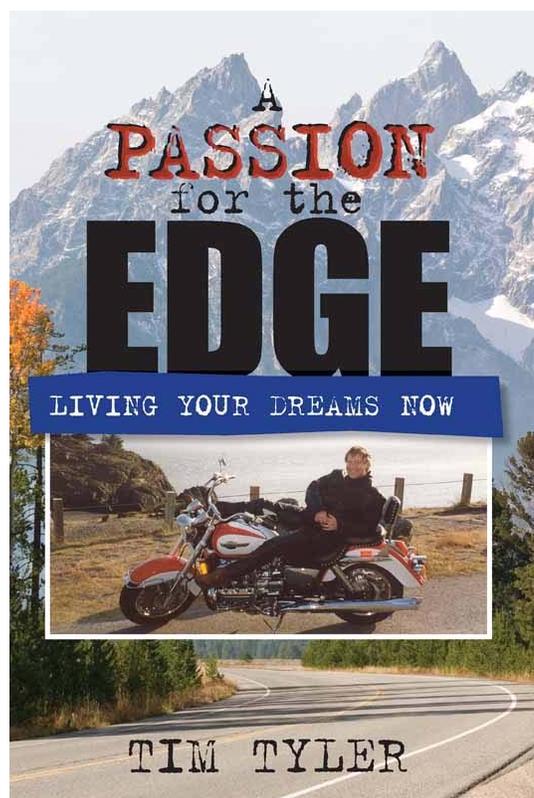

Description

A Passion for the Edge - Living Your Dreams Now

"If you want what you've never had, you have to do what you've never done."

Unknown

This quote seems rational. Yet, when it comes to living our dreams or succeeding in our lofty desires it sometimes feels like we're stuck in a routine, and cannot find a way out. Unfortunately, many people find themselves yearly refreshing a commitment to living their dreams, years move into decades, a lifetime passes, and their dreams remain unrealized. Why?

What do we need to do to begin living our dreams? "A Passion for the Edge - Living Your Dreams Now," tackles this question head-on. The approach used is unique. How to begin living your dreams is developed at three levels. (1) The theoretical level addresses the required success principles. (2) The practical level helps you define specific actions. And (3) the emotional level makes your dreams vivid by showing what it is like to live a dream.

Learning occurs by swirling together words, story, and pictures in a way that will ignite a passion for living your dreams. The approach will show how to discover the success principles that will let you

live his dreams while young, and help others do the same.

Background

A Passion for the Edge - Living Your Dreams Now

You live your dreams, by living your dreams.

Did you know 'how to succeed' books may be teaching you how to fail?

Have you ever asked yourself

why books you've read on how to succeed have not changed your life or helped you start living your dreams? Do these books just add more stuff to your already lengthy 'to do' list, but fail to produce significant results?

This book explains why concepts in 'how to succeed' books don't work and will help you discover how to begin living your dreams NOW.

I came from a modest home. My father went into the military before finishing high school. My parents are hardworking and caring but have never been financially wealthy. I was the third of eight children and the first of two sons. While growing up, kids my age liked me but I was not in the popular crowd. Following high school I left home, with just what I could carry in two suitcases, and joined the military. After basic training I met and married my wife and best friend, Joni. While in the military we had our first child, Noel. After the military Joni worked to help put me through college. At college we had our second child, Shannon. Within 6 months after leaving college I quit my first job. While I was working in my second job we had our third child, Cristi. Shortly afterward I quit this job, found a job in Alaska, and we moved for the fourth time since leaving college. It was at this time I started reading books about how to succeed. I read dozens of books and have an extensive library on this topic but found most how to succeed concepts in these books were ineffective in changing my life. Then, I discovered the fundamental principles that make it possible for average people to do extraordinary things.

I am a person of normal intelligence. I'm introverted and to this day still find it difficult to speak in public. I'm just an average person - perhaps a lot like you.

So you can see why people laughed at me when I said I was going to retire at 55... Then I retired at 50.

Imagine what it would feel like for you to begin living the life of your dreams. You can begin today.

It's simple. A river stops when the water freezes, and a dream stops when actions are frozen. You can only live your dream by living your dream. In this book you will discover how to succeed in living your dreams. No waiting necessary.

A book. The Road to Your Dreams.
